Dear mr. Cowell,

Enclosed you will find the data on the European iron and steel companies getting their raw material out of the Carajas-project. The reply of the Committee to questions asked by the Dutch member of the European Parliament, Mr. Henno Muntingh, contains the companies that made up long term delivery contracts as part of the loan granted by the European Coal and Steel Community to the CVRD. The other copy contains more recent and specific information given by the Sales Office of the CVRD in Brussels, Rio Doce International. I found their telephone number after all, it's Brussels 6431311. I hope this information will be of any use to you.

Yours sincerely,

  
Pearl Meijer,  
project assistant

Written enquiry no. 2128/87  
from Mr Henno Muttigh  
to the Commission of the EC

RE: Ecology and development in the Amazonas

Can the Commission report the following on projects it has financed or co-financed in the Amazonas

1. What products is the EC gaining from these projects?
2. Which European companies are involved in projects (co-)financed by the ECSU in Brazil or other parts of the Amazonas?
3. Have these companies in any way been supported by the ECSU (financially or otherwise) during this involvement?
4. Have any companies involved in "non-ECSU projects" in the Amazonas been supported by the EC or the ECSU?
