IARA FERRAZ

NOTES:

Dear Iara,

Thank you very much for your fax received today.

If you need any assistance in approaching agencies in Norway for the proposal, please let me know. I will be glad to help you.

I have already contacted some Environmental Organizations regarding the Indian Project we discussed in Rio. It will still take some time before I get a feed back, but I will let you know as soon as possible.

During the weekend I attended a workshop on TV communication, and was told by a Danish antropologist that the Kayapo indians are producing very high quality TV programmes. This is something the Global Television Network could like to support, by cooperating in financing productions which could be used by the TV Network. Thankful if you can let me know how we can be in touch with them.

FROM:

Best regards

ARNE
